

## REMARKS

Consideration and entry of the accompanying amendment is respectfully requested.

The amendments pertain to the specification only, and have been made to further bring the application into conformity to US practice.

The words "summary of the invention" are inserted as a header, since the insertion appears to have been overlooked in our previous amendment submitted 10 June 2005.

The new paragraph inserted on page 7, above line 34, presents subject matter from the paragraph starting on page 1 line 1.

It is respectfully submitted that none of the amendments constitutes an addition of matter.

Respectfully submitted,

Serge M. Roggeband
